**COLLECTION HISTORY:**

Davenport is a development of our Chair Braid Collection. Retaining the popular Scroll Gimp and Braid we have added two new trimmings, an Acetate French Gimp and Acetate Scroll Gimp to enhance the range.

Davenport is universal and ideal for a wide selection of upholstery, curtain making and crafting projects. With a wide selection of colours available in each product there is a broad spectrum to choose from, however with low minimum special order quantities a unique new colour is just an order away.
