STYLISH & PRACTICAL RETAIL DISPLAY

Available with or without retail packaging the spinner unit offers a stylish and practical solution for displaying tieback products to your customers.

The spinner has 4 display wheels, each with 8 arms for maximum sales capacity. The position of the display wheels can be adjusted to fit the size of the product selection you choose.

All spinner units are supplied with British Trimmings header cards that sit on top of the fixture (please note header card adds 140mm to the height of the unit).

Bespoke header cards can be supplied, however these are subject to additional cost and lead times, please ask your sales representative for details.
